

SKILLETY TECHNOLOGIES

**Building the AI Workforce.
Humans Decide. AI Executes.**

COMPANY

Skillety Technologies is building AI Workers that automate repetitive and mundane business processes across industries.

We believe the future workforce will consist of humans making decisions and AI Workers executing repetitive tasks at speed, scale, and consistency.

Our first AI Worker is **Lety—an AI Recruiter** that automates nearly 70% of the recruitment process while keeping hiring decisions in human hands.

MISSION

To build intelligent systems that automate repetitive and mundane human processes.

VISION

Humans Decide. AI Executes.

WHY SKILLETY

Today's businesses rely on people to perform thousands of repetitive operational tasks.

Tomorrow's businesses will rely on AI Workers.

Skillety is building that future.

Lety is the first of many AI Workers that will transform how businesses operate.

PRODUCT #1

LETY

The AI Recruiter.

Not another ATS.

Not another recruitment tool.

An AI Worker that executes recruitment.

Lety:

- Creates Job Descriptions
- Researches the Job Market
- Sources the best matching CVs
- Screens candidates on WhatsApp
- Conducts AI Technical Interviews
- Evaluates & Rates every answer
- Records every interview
- Produces complete hiring reports
- Ranks candidates

In less than 10% of the time, Lety completes nearly **70% of the recruitment process**.

Humans make the final hiring decision.

WHY NOW

Artificial Intelligence has reached a point where repetitive business execution can be automated reliably.

Businesses no longer need AI assistants.

They need **AI Workers**.

MARKET OPPORTUNITY

Direct Enterprise Customers

- Recruitment Agencies
 - Staffing Companies
 - GCCs
 - IT Services
 - Product Companies
 - Manufacturing
 - BFSI
 - Healthcare
 - Large Enterprises
-

White-Label Growth Strategy

Skillety is evolving into a White-Label AI Workforce Platform.

Partners will be able to launch their own AI Recruiter under their own brand, powered by Skillety.

Future AI Workers across additional business functions will be built on the same platform.

BUSINESS MODEL

Enterprise SaaS

White-Label Licensing

Platform Licensing

API Integrations

Enterprise AI Solutions

Recurring Revenue.
Highly Scalable.
